"Growing Together"

EMPOWER A FUTURE THROUGH EDUCATION

At **Fokyi Development Foundation**, we believe that every child deserves the opportunity to learn, grow, and build a brighter future through education.

Yet for many children in rural communities, this basic right remains out of reach. Financial hardships prevent access to school fees, uniforms, and essential learning materials. These challenges often lead to absenteeism, poor academic performance, and, in severe cases, school dropout.

Through this education support project, we aim to bridge that gap by providing school tuition and creating an enabling environment where children can succeed academically.

Right now, **150 vulnerable orphans in Western Uganda** are waiting for that chance — waiting for someone like **you** to step in and light their path to education.

The Power of Your Gift

Your generosity has a direct and lasting impact:

- **\$10** — Keeps a child in school for **one full term**
- **\$30** — Supports a child for **an entire year of uninterrupted education**

For Primary Seven (P.7) Candidates

- **\$22** — Covers **one full term**, including:
 - School fees
 - Final examination registration
 - Essential coaching and revision support

*The registration fee is paid only once. After the first term, the child continues at the regular rate of **\$10 per term** for Terms Two and Three.*

Your support does more than pay school fees — it plants a seed of hope that grows into a skilled, confident adult who can give back to their community.
